## REGULATIONS

### WITH WHICH SUBSCRIBERS HAVE AGREED TO COMPLY

**USE AND CARE OF EQUIPMENT.**—The subscriber shall not make, permit or use any electrical or mechanical connections or apparatus with the lines or equipment furnished by the Company without the Company's consent. The lines and equipment on subscriber's premises shall be carefully protected and used for lawful purposes where installed, and upon any termination of subscriber's contract shall be surrendered to the Company, unimpaired except by reasonably careful use. At all reasonable times the Company shall have the right, which the subscriber shall provide, of access from the street line, and of entering the premises of the subscriber to install, inspect or repair the lines or equipment, or to remove them upon the termination of the subscriber's right of use. The subscriber shall not use or permit the use of foul, abusive or profane language, or personate any other individual with fraudulent or malicious intent, over the equipment furnished.

**THE COMPANY DOES NOT GUARANTEE UNINTERRUPTED WORKING OF THE LINES OR EQUIPMENT.** For any complete failure of service, of which notice in writing has been sent to its general manager, and continued for more than twenty-four hours thereafter, an abatement of the contract charge for the period of such interruption shall be made.

Claims for rebate on account of interruption to service cannot be considered unless such written notice has been given to the Company.

The Company shall not be liable for defaults occurring on any other line, and the subscriber agrees to reimburse the Company for all sums it may pay or become liable to pay for messages transmitted for the subscriber over other lines than its own.

**SUBSCRIBER'S NUMBER.**—The prefix and number assigned to a subscriber's station are no part of the contract with the Company, and may be changed by the Company when necessary. Numbers must be changed when required by the opening of new exchanges or the regrouping of lines.

**DIRECTORIES.**—The Company assumes no liability for damages arising from errors or omissions in the making up or printing of the directory. Subscribers are requested, when they desire any change in their insertion, to notify the Company in writing.

**PRIVATE BRANCH EXCHANGE OPERATION.**—Operators employed by the subscriber for the operation of private branch exchange switching apparatus, shall comply with the operating rules of the Telephone Company, and render service satisfactory to it.

**CHANGE OF ADDRESS OR LOCATION.**—The Company will move the equipment to any point where the Company furnishes similar service, within the limits of the same exchange system accessible with its facilities, upon written order, when the subscriber agrees to pay the Company's current charges therefor. Such removal will be made without charge after the equipment has remained in the location for one year, but such removal without charge will constitute an express extension of the subscriber's contract for a period of one year from the completion of the removal. **AFTER A REMOVAL THE SUBSCRIBER SHALL PAY THE CURRENT RATE FOR SERVICE AT THE LOCATION TO WHICH THE REMOVAL IS MADE.**

**TERMINATION.**—The subscriber or the Company may terminate the contract on terms stated therein at any time before the equipment has been in use one year at one address, or location, and may terminate after said year, by giving ten days' written notice, in which case the subscriber shall pay in full to the end of such ten days, and the Company will refund the portion of any payment made in advance unearned at the end of such ten days.

## GENERAL INFORMATION AND INSTRUCTIONS TO TELEPHONE USERS

**TELEPHONE NUMBERS.**—Each subscriber's telephone is designated by a number placed at the left of his name. It is imperative that subscribers call by number (not name) to avoid error and delay. Always use the current telephone directory to obtain the correct numbers.

**THE INFORMATION OPERATOR WILL FURNISH** on request **NUMBERS** of new subscribers **NOT LISTED** and who have had service installed after this directory was printed; or of numbers which have been changed.

**HOW TO USE THE TELEPHONE.**—A local message is a communication not exceeding five minutes' duration between subscribers' stations within the same exchange area. To call the Exchange Office, take the hand telephone from the hook and place at the ear. (If the telephone has a crank attachment for signaling Central, give two quick turns of the crank before removing the hand telephone from the hook.) The Operator will say "Number, please?" Give the exchange name and number of the subscriber wanted, and the operator will repeat them to avoid mistakes. Remain with the telephone at the ear until an answer is received. If the desired line is busy the busy signal (an interrupted buzzing noise) or the operator will notify you of that fact. This means that the line called for is in use. Always hang up the hand telephone when through talking and if the telephone has a crank attachment, give two quick turns of the crank to notify the operator to ~~Answer~~.

"Toll calls are not received for particular persons but for telephone **NUMBER ONLY**, between telephones operated in the Exchanges of Highland Park and Highwood, and those given below. If connection is established with the number called for, the regular charge will be made."

# Toll Service

Believing that our toll service adequately meets the demand for quick communication between telephone users in the various cities and villages near Chicago, we encourage our patrons to use the long distance lines.

## Rates

Our Information operator has a list of all exchanges and will advise you of the rate for service to any point. We also call attention to the fact that we maintain a messenger service at each exchange and will call any party with whom you wish to talk, even though he has no telephone, providing you will pay a nominal charge for the messenger.
