REGULATIONS

WITH WHICH SUBSCRIBERS HAVE AGREED TO COMPLY

USE AND CARE OF EQUIPMENT. The Subscriber shall not make, permit, or use any electric or mechanical connections, or apparatus with the lines, or equipment furnished by the Company, without the Company's consent. The lines and equipment on subscriber's premises shall be carefully protected, and used for lawful purposes where installed, and upon the termination of his right of use subscriber agrees to surrender them to the Company unimpaired, or to insure, indemnify and pay the Company for any loss or injury to them arising from carelessness, accident or any other cause. At all reasonable times the Company shall have the right, which the subscriber shall provide, of access from the street line, and of entering the premises of the subscriber to install, inspect or repair the lines or equipment, or to remove them upon the termination of the subscriber's right of use. The subscriber shall not use or permit the use of foul, abusive or profane language, or personate any other individual with fraudulent or malicious intent, over the equipment furnished.

EXCHANGE SERVICE. Subscribers to Exchange System service may, on the terms of their contracts, transmit local messages to all exchange telephones located within the limits of the exchange system in which the subscriber is served.

A local message is a communication not exceeding five minutes duration between subscribers' stations within the same exchange limits.

Flat rate business service is furnished only for the use of subscribers and their employees in their business.

Flat rate residence service is furnished only for the use of subscribers (and their families) at their residences.

THE COMPANY DOES NOT GUARANTEE UNINTERRUPTED WORKING OF THE LINES OR EQUIPMENT. For any complete failure of service of which notice in writing has been sent to the Company's general offices, and continued for more than twenty-four hours thereafter, an abatement of the contract charge for the period of such interruption shall be made.

The Company shall not be liable for defaults occurring on the lines of any other Company.

SUBSCRIBER'S NUMBER. The prefix and number assigned to a subscriber's station are no par of the contract with the Company and may be changed by the Company when necessary.

DIRECTORIES. The Company assumes no liability for damages arising from errors or omissions in the making up, or printing of the directory. Subscribers are requested, when they desire any change in their insertion to notify the Company in writing.

PRIVATE BRANCH EXCHANGE OPERATION. Operators employed by the subscriber for the operation of private branch exchange switching apparatus shall comply with the operating rules of the Telephone Company, and render service satisfactory to it.

COLLECTIONS. Settlements for service are due upon receipt of bills rendered about the first of each month. Payment should always be made before the 15th of the month at the Local Exchange Office. Checks should be made payable to the Chicago Telephone Company. Subscribers are urged to settle their accounts promptly before they become delinquent to avoid suspension of service and inconvenience to their patrons and other users.

ALTERATIONS. The subscriber agrees to notify the Company promptly in writing whenever alterations or new construction on premises owned or leased by him will necessitate changes in the Company's equipment and the subscriber agrees to pay the Company's current charges for such changes. Estimates furnished on application.

CHANGE OF ADDRESS OR LOCATION. The Company will move the equipment to any point where the Company furnishes similar service, within the limits of the same exchange system accessible with its facilities, upon written order, when the subscriber agrees to pay the Company's current charge therefor. Such removal will be made without charge if service without changes in line, equipment, or class of service has been continuous at one address and in the same name, for one or more years, but such removal without charge will constitute an express extension of the subscriber's contract for a period of one year from the completion of the removal. **AFTER A REMOVAL THE SUBSCRIBER SHALL PAY THE CURRENT RATE FOR SERVICE AT THE LOCATION TO WHICH THE REMOVAL IS MADE.**

TERMINATION. The subscriber or the Company may terminate the contract on current terms of liquidated damages applying to his class of equipment and service at any time before the equipment has been in use one year at one address or location and may terminate after said year by giving ten days' written notice, in which case the subscriber shall pay in full to the end of such ten days and the Company will refund the portion of any payment made in advance unearned at the end of such ten days.

GENERAL INFORMATION

AND INSTRUCTIONS TO TELEPHONE USERS

TELEPHONE NUMBERS. Each subscriber's telephone is designated by a number placed at the left of his name. It is imperative that subscribers call by number (not name) to avoid error and delay. Always use the current telephone directory to obtain the correct numbers.

THE INFORMATION OPERATOR WILL FURNISH on request **NUMBERS** of new subscribers **NOT LISTED** and who have had service installed after this directory was printed; or of numbers which have been changed.

HOW TO USE THE TELEPHONE. A local message is a communication not exceeding five minutes' duration between subscriber's stations within the same exchange area. To call the Exchange Office, take the hand telephone from the hook and place at the ear. (If the telephone has a crank attachment for signaling Central, give two quick turns of the crank before removing the hand telephone from the hook.) The operator will say "Number, please?" Give the exchange name and number of the subscriber wanted, and the operator will repeat them to avoid mistakes. Remain with the telephone at the ear until an answer is received. If the desired line is busy the busy signal (an interrupted buzzing noise) or the operator will notify you of that fact. This means that the line called for is in use. Always hang up the hand telephone when through talking and if the telephone has a crank attachment, give two quick turns of the crank to notify the operator to disconnect.

HOW TO ANSWER A TELEPHONE CALL. Remove the hand telephone from the hook and give your own number, as for example, "This is Main 294" (or whatever the number may be). This will immediately inform the person calling that the desired connection has been established.

REPORT TROUBLE. When the line or instrument is out of order, notify the Repair Clerk of your Exchange. If the trouble is not remedied within twenty-four hours, kindly send notice in writing to General Manager, Chicago Telephone Co., 230 W. Washington St., Chicago, Illinois.

A TOLL MESSAGE is a communication to a telephone beyond the limits of your local exchange system, but within the area in which the Company operates. A Long Distance Message is a communication to a telephone outside of the area in which the Company operates. The Company's employees must not undertake to transmit or deliver verbal or written messages for patrons.

Toll or Long Distance rates are for messages of three minutes or less. A charge is made for each additional minute or fraction thereof.

TO MAKE A TOLL OR LONG DISTANCE CALL. Call for "Long Distance" and when the Long Distance Operator answers, give the name of the town, and exchange name and number, when known, and the name and address, or the necessary information to identify the party desired. The operator will make the connection and will call you to the telephone.

TO MAKE COLLECT CALLS. Toll or Long Distance messages can be sent "collect" provided the person receiving a collect message agrees to allow the same to be charged to him. Request to have the charges made against the party called for should be made at the time the call is given to the Toll or Long Distance Operator.

ORDER TO MOVE TELEPHONE. If you wish to have telephone moved, please **FILL OUT** a move order and mail to **MANAGER** of your Exchange, or No. 230 W. Washington St., Chicago, at least ten days before date removal is desired.

NOTE. Thirty days' notice is necessary for removal between April 15th and May 15th.

Special Notice to Toll Users

Toll calls are not received for particular persons but for telephone NUMBERS ONLY, between telephones operated in the Exchanges listed below. If connection is established with the number called for, the regular charge will be made.

EVANSTON	**LAKE FOREST**
GLENCOE	**NORTH CHICAGO**
HIGHLAND PARK	**WAUKEGAN**
HIGHWOOD	**WILMETTE**
KENILWORTH	**WINNETKA**
LAKE BLUFF	**ZION CITY**

When the TOLL RATE to telephones in the Chicago Exchange System, or Neighborhood Exchanges in Chicago is 15 cents or LESS, calls are NOT received for particular persons, but for telephone NUMBERS ONLY. If communication is established with the number called for, the regular charge will be made.

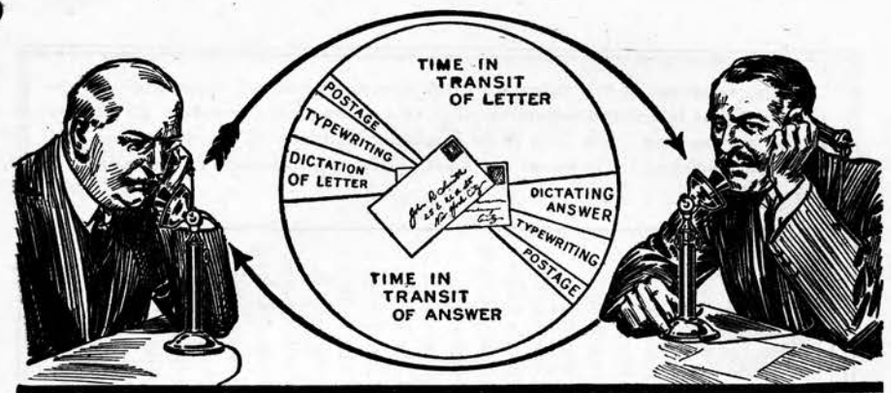

Figure the Cost of Your Correspondence

This is the course of the average business letter:

It is dictated, typewritten on office stationery, with a carbon or letter book copy for the file, addressed, stamped, and transmitted by mail to its destination.

Each step costs in time or money, or both. The wide-awake business man will figure these costs for himself.

Then comes the answer, which must go through the same course, and costs the same in time and money.

The unavoidable delay in transit of the letter and answer may amount to a great deal more in dollars and cents than all the other expenses.

You and your correspondent may fail to come to an immediate understanding. Several letters may pass before the matter is cleared up.

Contrast what you can do by correspondence with what you can do by using the Long Distance service of the Bell system.

Three minutes of actual talk may take the place of half a dozen letters, and complete the business.

Anyone who can be reached by mail can be reached by telephone. There are 65,000 Post Offices in this country; the Bell telephone system reaches 70,000 places, and includes over 7,000,000 telephones.

The Long Distance lines of the Bell system not only link together the commercial and industrial centers, but each Bell telephone, wherever located, is a Long Distance station and the center of a talking circle whose radius is limited only by the distance to which speech can be transmitted.

American Telephone and Telegraph Company and Associated Companies

This schedule of toll rates, for three minute use of toll lines, proves conclusively that telephone communication to nearby points involves an almost negligible expense. Nor may it be forgotten that use of the telephone toll wires for social or for business purposes carries the influence of the speaker's personality.

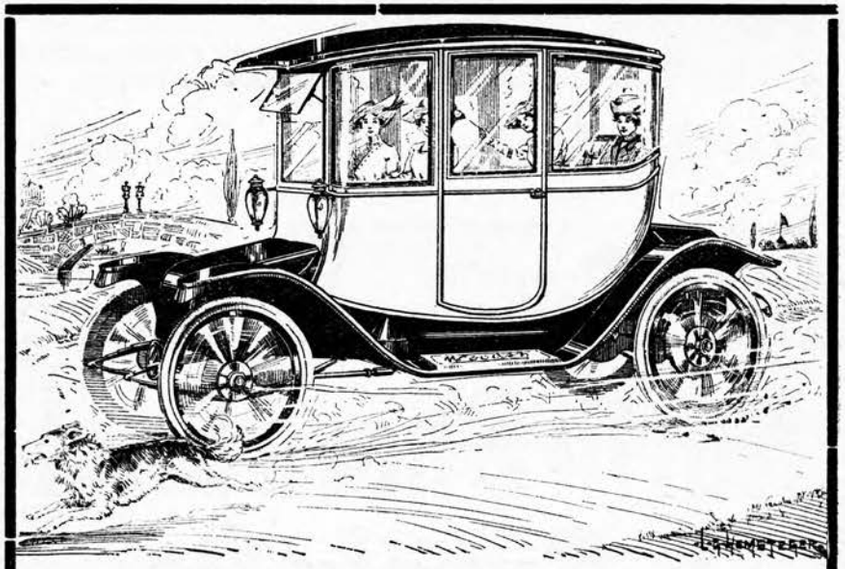
8 N. SHERIDAN ROAD :: HIGHLAND PARK, ILL.



The Woods Electric

Isn't the only handsome Electric—nor the only one elegantly furnished and equipped—but it is the only Electric combining these desirable qualities, with a proven record for durability and satisfactory service on punctureless, solid rubber tires.

We have our own garages at Highland Park, and can offer all owners of Electrics service of the highest order.

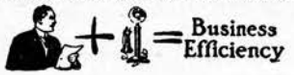
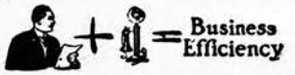
REACHING THE WORLD BY TELEPHONE

A MILWAUKEE AUTOMOBILE AGENT calls out-of-town customers on the telephone, to whom cars have recently been sold, and asks if friends have admired the cars or expressed any thought of buying. He follows up the prospects and has made several sales in that way.

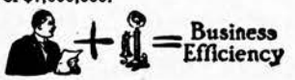


A WORCESTER, MASS., FIRM sends circular letters to selected lists of out-of-town horse-owners, and follows these up with telephone talks, securing many orders for carriages, harness, etc., as the result of telephone salesmanship.

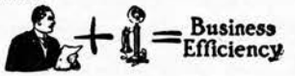


A WELL KNOWN BOSTON LAWYER recently settled an important civil case out of court by the long distance telephone. The plaintiff was in Trenton, N. J., while the defendant was in Northampton, Mass. By reaching both parties an agreement was reached and the cost of trial avoided. The telephone charges were less than ten dollars, while at least a thousand dollars was saved in the cost of a trial and other expenses.

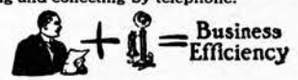
THE YEARLY SALES of a wholesale lumber dealer of Boston aggregate about 3,500 cars, of which 1,500 cars were sold by long distance telephone, the telephone sales aggregating upward of $1,000,000.



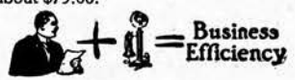
A LARGE MANUFACTURING COMPANY of Greenfield, Mass., has established six sales centers throughout the United States at which long distance telephone orders will be handled exclusively. These offices will be managed principally by long distance telephone from Greenfield.



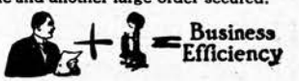
AT BANGOR, ME., a wholesale hay and grain dealear formerly had two salesmen on the road. Now the firm keeps them for office work and city canvassing, and does all its out-of-town selling and collecting by telephone.



A SALESMAN for a large Chicago company covers the trade in Southern Wisconsin exclusively by telephone. He goes to Madison, from which point he calls about three hundred customers, and usually disposes of about two hundred carloads of coal at a profit of $20.00 a car. Two days' telephoning campaign costs him all told about $75.00.



BY MEANS OF A LONG DISTANCE TELEPHONE follow-up call, a Milwaukee jobber found a customer at Monroe, Wis., much displeased with previous shipments and disposed to withhold further orders. The matter was satisfactorily adjusted over the long distance telephone and another large order secured.



American Telephone and Telegraph Company and Associated Companies

One System, One Policy, Universal Service

Telephone Attachments

Telephone attachments are being peddled in a miscellaneous manner throughout the country and are purchased by unsuspecting or unthinking users and attached to their instruments. Generally the so-called "helps," disinfectants, etc., are a positive hindrance to telephone service, not being so designed as to secure the maximum of efficiency in hearing or speaking.

Many of them get the lines and instruments into trouble, whereupon the Company, to protect its service, is obliged to remove them. Rubber earpiece attachments do not augment the sounds received, and often make it impossible to hang the telephone properly upon the switch-hook. Essentially the same result can be obtained by closing one ear with the palm of the hand. The instruments should be kept clean by wiping them.

Telephone instruments, necessarily very sensitive and intricate, have been designed to produce the best results as they are. In the interest of good service, subscribers are recommended to make no attachments of any kind to their instruments.

IF you were investigating for the purchase of an automobile you would find you could buy an auto for almost any price above $500.00. YOU might consider the material and the workmanship but I believe you would consider the strongest the reputation given that car by the persons using them.

In plumbing there are established rules by which the work is to be done, but every steam-fitter, like every auto maker, has his own rules. Many people spend a great deal of time picking out a good boiler and then give the job to an inferior steam-fitter or an unreliable one and have a poor plant, then blame the boiler.

A good first class auto costs more to make than an inferior one; a first class heating plant costs more to install than a poorer one. We are installing first class heating plants at prices many people are paying for a much inferior one. We do not care what boiler the owner picks out; we have installed in Highland Park about fifty boilers of ten different makes, and to the best of our knowledge all of the owners are recommending their boilers to friends, and they will recommend our work. The reason of these successful plants is the work was put in right.
