The Author: Jesse Lowe Smith was born in Macon, Illinois, on 23 November 1869, to the Rev. Leonard Francis Smith (1838-1874) and Bridget Ann Lowe Smith (1842-1941). His father’s diary for that date: “At 5:30 wife bore me another child, a boy weighing 10 lbs when dressed. Dr. Tobey was the physician…” Jesse’s father, Leonard Francis Smith, son of Jesse Smith and his second wife, Sophia Lake Spencer, had married Bridget Ann Lowe, daughter of William Fletcher Lowe and Elsea Aquila, on 10 September 1863. They had six children, Elsie (1864), Kittie Grace (1865-1932), Clarence Bruner (1867-1943), Jesse Lowe, Edith (1873-195?), and Lennie Francis (1874-1976).

Jesse Lowe Smith attended grade school in Macon, Illinois. With a passion for books and nature study, Jesse saw his life as a teacher. He attended the Academy in Benton Harbor, Michigan from 1884-1887, living with his Great Aunt Margaret Crooks. In 1888 he returned to Macon where he taught for three years. Teaching and studying independently as he taught, Jesse, at age 21, qualified for entrance to De Pauw University in September 1891. He completed his education at the University of Chicago from 1892 to 1894.\(^1\) After one year at De Pauw, he returned for one term at Macon, and then, with his mother and sisters, went to Lexington, Illinois where he taught for four years from 1893-1897, followed by five years in Park Ridge, Illinois. In May 1902, Jesse came to Highland Park as principal of the Elm Place School. He was Superintendent of Schools for District 107 at the time of his death on 21 April 1934.\(^2\)

His diaries reveal Jesse Lowe Smith to be a man of many interests and great influence. He was widely known and respected throughout Illinois as an innovative educator and avid naturalist and in Highland Park as an educational, cultural and civic leader. He inspired the Elm Place School teachers to higher ideals of education and the students to a deeper understanding and appreciation for the world around them. He left a lasting impression on all who knew him in life and continues to inspire many who make his acquaintance through his diaries and his legacy in Highland Park.

Identifications: In his diaries, Jesse frequently refers to members of his family. During his years in Highland Park, Jesse provided a home from his mother and sister, Kittie. They are often referred to in the diaries as M. and K. His brother Clarence Bruner is referred to as Clarence or Clarence B., and Clarence’s two sons, Leonard and Clarence, Jr. (Bruner or Junior) are also mentioned. Jesse’s sister Edith married Clarence Danforth (Danforth or Clarence D. in the diaries). His sister Lennie married Arthur Enders, and their children, Robert and Ruth Anne, are mentioned in the diaries.

Transcriber’s Notes: Every attempt has been made to provide an accurate transcription of the diary entries with respect to spelling, grammar, and punctuation; therefore incorrect or inconsistent (Mr. Smith spelled the same word in different ways at different times) usage is retained without the use of (sic). When words were added above the line, they have been inserted into the text. When words were inadvertently repeated, the second occurrence of the word has been dropped. Margin notes are indicated as such and are placed following the text that they appeared adjacent to in the diary. When words were illegible, brackets have been supplied enclosing a blank space [   ]. Words that could not be deciphered with certainty have been placed in square brackets followed by a question mark [like this?]. Transcriber’s notes are indicated by brackets [like this – ed.]. Clippings that were pasted into the diary are described in a transcriber’s note, but are not always transcribed.

Almost stunned this A.M. to see in the Trib. the announcement of Dr Wynn’s death in Glacier Park
yesterday.
I had a letter in June from him, reminding me that the mountains were calling, & he asked me to be
the fourth member of the climbing party – Wynne, Dr Goddard, Harry Horn, ------. I wanted very much
to go but I knew I could not leave by July 20, the date set, and indeed was not certain of being so far away
at any time. So I wrote my regrets [see July 3 entry – ed.] & advised them to select a fourth person in my
place – I had had a previous invitation from Dr. Goddard. – Now the good kindly Dr Wynne is gone!
